Erro no Apache

Colocado por jeh_dias - 12 Abr 2013 13:51

Olá , bom dia .

Eu instalei o WampServer e estava funcionando por um tempo , porém fui configurar a senha para o banco e começou a dar o erro 1045 . Logo após isso , não consigo mais acessar o phpmyadmin , nem páginas do localhost por exemplo .

Vou postar aqui os erros que retirei do Apache error log .
